Subject: Bank charges a total Ripoff

Dear Mr Keith Weeks,

Sir,

The banks are totally ripping us off, of their high bank charges. I bank with (**Standard Bank**)

Let me state two recent cases in one month.

1) At the end of the month after all my debit orders went thru. I had a balance of R90.00. The bank charges was R99.00. Because I was short of R9.00. I had to pay a penalty of R100.00

2) On my (Std Bank Credit card) instead of paying R400.00 I paid R350.00 and again I was charged a penalty of R100.00. Because I short paid by R50.00.

So in one month the bank charges amounted to almost R350.00 and this caused huge dent with my monthly budget.

Ps. I made many calls to the bank and all they said was its the computer program that generates all the charges and they cannot do anything.. If you require proof of the above I will gladly forward the documents to you..

Please help all of us

Thank you.
