**To:** Banking Enquiry  
**Subject:** Fees

We as consumers are being ripped off by the banks because they are allowed to charge as much as they want to. It is absolutely ridiculous the amount of money banks are making from transactions fees. The figure of R29 billion was mentioned. I don't believe that this is happening anywhere else in the world, then why in SA. The fees should be reduced forthwith and it is about time that this was subject to an enquiry.
