hi

i do think that banks are charging too much for their facilities. i don't understand why we have to pay to deposit money into the bank account. my grandparents are state pensioners and i'm employed part time, the fees eat into our monthly salaries. my mother isn't very happy that she had to pay over R100 in fees for a deposit and withdrawl. incorrect interest received on my account was reversed double. and as anyone will tell you about banks, too many windows, too few tellers. SA is a 3rd world country, yet we are paying 1st world prices.

thanks
nadine
