Subject: Fw: enquiry into bank charges

Sir,

In addition to my previous communication I wish to add the following complaint about banking charges:
One is the frivolity of charging for cash deposits, whether over the counter or at the ATM. Where else is one supposed to put the cash ? In the mattress ? Or does the Reserve bank charge the banks for returning cash to them ?
The other is charging for foreign deposits, coming by electronic t/fer. Local t/fers dont cost the receiver anything, so I cant see why there should be a charge for a foreign transfer into one's bank account (R105 for a deposit of R21000, for instance). Why ?

regards,
