It is the first time in our Country's history to hear about Grocery Retail sector market inquiry- it makes small and informal townships independent retailers smiling for change because it always the Big Boy's that gets away with things above us. We can't bargain to pass on to the have nots or debate prices because, we are to small and fragile in business market, specially in grocery market. The grocery market is needed everyday in the township. Looking at Makro- and other supplies- in the market place- it is like a war zone between- bullies and survivors - just to make ends meet at the closing of business day.

Hoping to hear from the outcome

Yours in Business

JE. Diederichs
