Dear Mr Hodge

We acknowledge receipt of your letter dated 11 June 2021.

Thank you for the invitation to make submissions on the draft Statement of Issues attached to your letter. However, Samsung Electronics South Africa Proprietary Limited does not believe that it can meaningfully respond to the "*Questions for stakeholders*" in the draft Statement of Issues because Samsung is not a consumer or business user of so-called B2C online platforms. In addition, Samsung does not provide an online intermediation service platform which intermediates transactions between business users and consumers.

Yours sincerely,

Mark Grobler
Head of Legal & Compliance
Samsung Electronics South Africa (Pty) Ltd
